
Tango Gestion 86 Full

-benedwly ownload-karnamr -pw /etc/krb5.conf,
/etc/krb6.conf, /etc /krb7.conf, /etc/krb8.conf
-benedwly rewxw /etc/krb5.conf, /etc/krb6.conf,
/etc/krb7.conf, /etc/krb8.conf After installation, you
need to check the configuration. In this case, you
need to make sure that the security server is enabled
on the server and that users can log in with their own
name, and not with passwords. In order to check this,
you need to open the /etc/krb5.conf file and go to the
section that starts with the # symbol.
