GameWorld "Rarely does a game come along that grabs you from the start and keeps you there until the end. Sometimes you start a game and want to give up after one attempt. That does not apply to Tarnished. The world of the Lands Between is so incredibly beautiful and full of life and variety that it made me want to try again and again. The classes allow for so much variation, that there is definitely a class for everyone. The character creation is pretty complex in Tarnished, but at first I was scared. I got used to it after a while, though, and it wasn't a big hassle at all. The combat is simple but very dynamic, however. The controls work very well."

GameWorld: BGG "This game is not only an exceptional RPG with a very interesting setting, but also a game with a certain cultural identity. This title was and will continue to be an important collection of materials for the Nerddom." BGG:

GameCreations "One of the very few games that I have just loved from the start. The story is great, not only because it was even recommended to me by the employees, but because I can feel the emotions of the characters. The backgrounds of the game are really well done, I really like the style. And of course we have monsters that we have never seen before. All in all, this was a really remarkable game. I recommend this title 100%, don't pass it up." GameCreations: Welcome to the Lands Between

"The Lands Between is a beautiful setting in which one can experience a wide range of emotions without being bored. I think that this game is a must-have for everyone who is interested in a fantasy adventure! You can play it alone or in multiplayer. A very good quality for a game that is also easy to grasp, with a special focus on its story." Welcome to the Lands Between: Games.ru "I strongly recommend Tarnished, after having played the game you will not be able to forget, and you will be talking about it for years." Games.ru: The Daily Paper "Concept Tarnished is a fantasy RPG, for gamers with a good imagination." The Daily Paper: Drill "Tarnished is a very charming MMORPG.
