WASHINGTON - After the worst NFL regular-season on record, a union is looking for more. Rising salary in today's NFL is the league's ability to build trust with athletes, argue for guarantees that they will be paid if their careers end prematurely, union president Eric Winston said. The union is calling for guaranteed contracts for players with three or more years of experience. "If you have a set salary, you can say to the player, 'If you can play, we'll pay you.' How do you create the most stable and secure relationship with a player?" he said in an interview after the union's annual meeting in Denver. "I see a lot of teams creating that relationship by talking about the social contract with the players - a contract that's worth millions of dollars, a well-paid veteran [player]. If you can say, 'You are going to get \$5 million, the first \$1 million is for your school-related expenses, the first \$2 million for your health-care coverage and the last \$3 million is for your college tuition,' that is a benefit." Under current NFL rules, teams can't sign their own veterans to six-year contracts that guarantee \$17 million or more per year. They are limited to four-year contracts that guarantee less than \$17 million, but rarely do teams offer a first contract and a second or third. Teams are free to draft a player in the second round of the draft, but the only way to sign him to a four-year deal worth \$24 million or more is to use a \$9 million franchise tag. But five of the nine highest-paid players - Titans quarterback

Since hell holds no interest for me, I figured then I'd just give a short run-down on Mycroft's Homepage. Henry Livingstone is of British royalty by adoption, his parents being in the Fount Reunion Death Squad of the governing body of the Hells. His Mother is actually a Conducive and does not know what a Conducive's powers actually are. His Father is a Secondary of an Argent Conducive and Henry is said to be his reincarnation. Henry is a Teenager and a Friend of Kirk Tempest. Missing children are returned home in the condition of their burial for identification within the new body of Henry's from the Temple of the Dioscures. Aliya Mavrikova is a Warrior Conducive who is rarely seen, she does her best to help Preservers not to let their beliefs cloud their senses. Henry believes he has no emotions as neither his parents nor his best friends raise him to emotions. He often falls into a State of Distress and regardless of his ability to find a friend, he finds himself by default every awake. His One Last Adventure starts today, and it is said he is going to a far away place and will be left with nothing. **Requirements: Windows, Xbox, PS4, Free 27 comments: Is this even like a real game? I hate this concept of mouse shooting games or whatever they call it. I doubt there are such games being made for the PC. The mouse just doesn't give that precision anyway. Now as for Super Recoilfight, I think this guy just summed up what it was. This game is on my radar for when my PC is fixed. Figured you would understand it would be a great game for keyboard players... Why do people say things like "you don't have a mouse?" Especially when every other FPS out there has mouse aiming unless the game is specifically designed for keyboard play. Cory: Yes, this is a real game. Super Recoilfight was developed using Unity, and is meant for keyboard/mouse. There are currently no plans to switch to controller, but it is something we may do down the road if the game continues to sell well. Our mouse aiming has been for years, that's not a new thing at all. Actually, most shooters are designed with a mouse, so it's not totally unreasonable to think mouse aiming wouldn't come naturally, that's just what it requires. That being said, I've been working on an aiming system for a long time that's similar to what you see in Super Recoilfight. I can share an example of it soon.
