Best GPS tracker of 2015, F1 available on Amazon I want to read something about navigation devices in German. I'm not really interested in the specific article (I'll easily find it myself) but something more for a general overview of navigation devices in German. (Not necessarily German language but the language of the article). Any suggestions? A: I found the following reference. But it is not exactly what you were looking for. I am surprised that there is no German article here. I think, that you will have to ask a German forum/blog-site.
