The new motion capture technology helps players with less ball control move like champions, contribute to the team's offensive moves, defend better and, more importantly, feel more accurate in their movements. For players, the enhanced Artificial Intelligence (AI) algorithms, precision heading and ball control, together with new realistic animations, make FIFA 22 more immersive than ever. For more information on FIFA 22's new motion capture technology, please visit: www.easports.com/fifa. In addition, EA SPORTS also unveiled a number of FIFA 22 gameplay announcements today, including: Four New Storylines Four new storylines help define every aspect of the game, including "Blitz," "Enthusiast" and "Resurgent." "Blitz" – This tournament will challenge soccer powerhouses as rival superpowers. From the pitched battles between Brazil and Germany, to the mighty clubs facing off across the English Premier League, "Blitz" has numerous team stories to provide a competitive, gripping environment throughout the tournament. "Enthusiast" – Soccer isn't always a spectator sport. For some, it's a way to escape the real world. For others, it's a way to earn a living. In "Enthusiast," use your talents and get to the top of your chosen sport. Build your dream team, become the best player in the world, and win the ultimate prize: the World Cup. "Resurgent" – Most big tournaments are decided by the small margins. "Resurgent" highlights those small margins to give you opportunities to raise your game and get a leg up on the competition. Build your fantasy team using the best players from the past and present, and earn a spot in the world's most important tournament. Pro-Quality Soundtracks From infectious Latin hip-hop songs and vibrant club anthems, to new arrangements of classic FIFA music, the new and improved soundtrack packs a real punch. New controller and gameplay features that combine to create a single, comprehensive experience. More speed, agility and finesse, allowing you to see everything play out before your very eyes. Stunning visuals that are the only thing in the way of your soccer dominance, with full control over the composition, camera and player model settings. F

Easier to learn than remember. Introducing FIFA. For casual, veteran or video gaming club players. FIFA is a series of video games which simulate association football, that is, soccer. FIFA is a trademark of Electronic Arts, Inc. Unlike other football games, FIFA games don't have players or teams. Instead, they focus on the whole game. The gameplay is based on the association football, a sport played worldwide, but the players' faces are replaced by avatars. Easier to learn than remember. Introducing FIFA. For casual, veteran or video gaming club players. New Player Experience The opening gameplay in FIFA 22 may be familiar to players of previous versions, but the major changes and new features are all-around gameplay improvements and more situational awareness. There are new tutorials, new game engine and new game mechanics to help new players learn the game. Players can earn titles and badges, take part in fun-filled challenges, and compete in online leaderboards. What's new in Fifa 22:

- **The Most Powerful FIFA Ever. More than 1.1 billion matches have been played by players using FIFA Ultimate Team, now with power to make them play like real life. With card-based FIFA Ultimate Team in FIFA 22, you'll have access to more team cards and a deeper set of cards to build and expand your Ultimate Team.**
- **FIFA 22 introduces "HyperMotion Technology." Uses real-world data to bring the AI to life and bring the ball in FIFA the way footballers move. It enhances player movements, personal assaults, defending and tackling, goal-stopping, juggling of the ball, aerial duels and on-ball interactions. Players adapt to the ball and use smaller movements to get around the opposition.**
- **New AI Gameplay – The way the new FIFA 22 AI executes plays is improved giving you more control over how your team performs, and how they will pressure your opponent.**
- **Creative Tools – New design tools in the Create a Stadium and Create a Team screens, along with new extras like the Vertical Centre of Gravity system, so you can customise a quick build shape anywhere on the pitch.**
- **More Control – Improved ball physics also means that shots won't have the same accuracy of shots in previous FIFA games, which will level the game field in a big way – see how you fare through FIFA 22's new Challenge Mode.**
- **Intuitive Controls – Being able to instantly intuitively control ball physics through the new B button command allows you to make quicker, more intelligent decisions on the pitch.**
- **Enhanced Visuals – FIFA 22 features an all-new, reconstructive, all-new presentation, PES Evolution Engine and handling system, that give the pitch and players a more realistic and immersive 3D effect.**
- **Passing – New touch screen controls allow for better passing, an easier to use gamepad, and improved passing animations, both in terms of the opponents foot and where it goes. Old school control is also still available.**
- **New Shape – Created for Next-gen sports, FIFA 22 delivers a new shape, allowing players to develop their skills in a completely new way. Passes and dribbles with players positioned better on or around the pitch.**
- **Combat – A more adaptable, intelligent and versatile defensive system means that**
