because the Kobo is now
available in a refurbished
state. While some might say
this is just a means to a
different kind of obsession —
retreading products — it's a
rare treat, as the Kobo was
the first reader Amazon sold in

its own physical form. It's also a fine reader that's made the jump from Windows to Android, gaining a software-based improvement that's well above the usual replacements that you see on smartphones. The refurbished Kobo Clara HD 8.9" is priced at \$149 (normally \$159) and can be picked up at Staples, Best Buy, Target and other retailers. Here's how the refurbished version fares compared to the original model: That's how the Google Nexus 7 and Kindle Fire HDX

far outstrip it in terms of performance and cost. I should add that it's a good reader, and those who don't need a tablet for reading will still find it a good reading experience. When it comes to Android tablets, you get what you pay for. Update: The Kobo has been removed from Amazon. Here's the page to check it out: [Manipulation within a member function of class QApplication](#) This is my first time using this website (and new to programming), so I was hoping for some
