MindGenius Free Registration Code Free Download [2022-Latest]

MindGenius Business software is a intuitive and effective application that enables you to design and develop mind maps, and also serves as a project management tool. You can create original mind maps, but the program also offers numerous templates, organized in relevant categories. The application enables you to create detailed mind maps, but also offers various layouts for more effective visualization. You can modify the map layout to better display the necessary information, and there are various layouts to choose from: diagram, output or input tree, outline, organogram and funnel. You can expand and contract various branches and assign multiple types of information to each of them. The program allows you to insert notes, attach files, add hyperlinks, images or even link a branch to another map. MindGenius Business includes a built-in map explorer, that you can use to view the project in an expandable tree view that allows you to quickly navigate between various map levels. Various tasks can be assigned to particular branches, and every branch can be allocated certain resources. You can specify a task's start and due dates, priority, status, duration and cost. The information can be viewed as a resource map, that offers a detailed representation of the tasks and resources assigned to various branches. The created presentation can also be exported to PDF or PPT, so that it can be viewed in Microsoft Powerpoint. MindGenius Business is a unique tool that helps you design a project management tool that will be appreciated by all members of your team.
