As the lady said, she had a dream one night which lead her to become a fortune teller. she made her dream come true but also became a little sad. At some point in the game, you must play the first minigame, "Mineko's Night Market" with a starting budget of two. You must earn three billion yen before beginning this game and also earn 5 billion yen from selling your goods. It is recommended to have at least three character slots because you will be able to complete this game. There are a few things in this game that you should know about. Firstly, this game takes a lot of time. This game includes five mini games and takes around 40-60 minutes to complete. This game has many features such as a Quest System, Gem Shop, and Customization. It is one of the easiest game to play. The customization options will allow you to install upgrades. You can select your characters from nine types of people. What I did not like about this game was the timing system. If you do not finish the "Mineko's Night Market" in time, you will get a terminal and then have to restart the game. The time span is about 7-8 minutes. There were many bugs in the game, especially when the background was changing. The game also has annoying bugs, like the background music can play on its own. It is difficult to earn the cash that you need to buy the upgrades
