"RPG Maker VX Ace - Fantasy Interiors is a continuation of the popular RPG maker series, giving you that extra ability to add to your worlds with the added ease of RPG Maker's dice roller! With the added ability to create incredible customised dungeons to just about any level, with the EASY GUI interface, RPG Maker Ace - Fantasy Interiors will make your layout a breeze and with the plethora of assets in the package, you will be able to create the most detailed and unique dungeons on the market. Add to this amazing features like the ability to create up to 15 additional characters for combat, the ever popular Magic System, Level-ups with Experience Points, and the much requested Magic Points, plus much much more, and you have an extremely powerful tool to create that unique game experience, RPG Maker Ace - Fantasy Interiors." Recommended Changelog Changelog * Contains updated look of the furniture and door skins * Includes updated pictures of furniture * Contains a few new glass tile backgrounds * Contains a couple of extra wooden (or stone) doors for use with the door sprite * Contains 2 character sheets of items for tables that allow for more storage, and 2 x side cabinets to hide the clutter * Contains the original files for all of the original tile A-E as the included zip file. File Details The author of this item has been identified. Share this content About the Author I was born and raised in Ireland and, after a stint of touring the world of games, I have made the sudden and very frightening decision to remain in Ireland, where I have made a home in the small city of Galway. Read more of my work over at my website: www.gastspieleentwicklung.de Tagged Share Trackbacks [...] TO THE REAR: Barbarian Games have released a new group of free assets for RPG Maker VX Ace, which of course means new islands to explore and a new dungeon to break into. [...] 665 So.2d 140. *707 Based on our review of the record, we find that Brown's offer was reasonable and fair. If Father's offer had been reasonable and fair, then on our review of the record, we would not find that it was a gross deviation from the essence of the original agreement. The record does not show that the parties actually reached an agreement as to custody and visitation when they arrived

"Ace of Protectors" is a stylish PvPvE RPG game that plays like an Action-RPG but takes many Action-RPG elements like dealing damage and levelling up in a turn-based combat system. Battles can be extremely fast-paced and challenging, in which you will use your special skills to protect our fantasy world from the attacking monsters. "Ace of Protectors" supports both keyboard and gamepad controller. You can also enjoy this game with many family members through your friends who also enjoy the game. "Ace of Protectors" features a huge main story, daily and special event quests that offer new characters, gears, skills, Intels, achievements and Steam Trading Cards. You will come across randomly selected bosses, side quests and dungeons that will provide you with unique fights, items, and skills. This game will be loved by many players because of its good graphics, awesome sounds, amazing characters and fun gameplay. Create a balanced and strong party of up to three characters for battle, and choose your own party from a pool of over forty, with beautifully designed characters. Once you've chosen your team, set off to tackle quests and defeat the rampaging hordes of monsters threatening the Venux! Have fun while fighting evil in "Ace of Protectors". Key Features: - The legendary heroes will come back! - Create a party of up to three unique and special characters with over 40 characters. - Explore a huge world with various zones. - Experience a deep turn-based RPG battle system, like you've never before played before! - You can use more than one character at a time to mix and match the heroes for your own unique play style! - You can capture, gather resources from battlefields, trade items and fight with monsters by using special gear and skills. - Collect and enjoy rewards including Steam Trading Cards! Adventure Land's Team Base:Your Account Manager will be with you to ensure your interests are always your interests. We want to help you enjoy this game!You can contact us at any time for any kind of issues you might encounter. We'll be happy to assist! QUICK TOUR: NEW GUILD GROUPS AND UPDATES: We've added new guilds! Here are the links: There are many groupings, with many levels, from very casual, to more competitive. There's a little bit of everything, sometimes we go for pure PvP, sometimes not.If you don't find a group you're comfortable with, you can still join the game and have fun playing on your own. FUN FACT: Adventure Land was the first game I made, and it still remains the fastest game I've ever made! More updates to follow, more zeps and more games. If you have any questions or suggestions, don't hesitate to ask! BLOCKMAP: There's a place where you can go in-game and help your fellow gamers navigate a big world! If you're unsure of the area, send a friend to help, or ask for a friend to take you there. From there, you can enter an area and interact with some tiles to receive items. These items will then give your character in game (via the backpack), the powers necessary to move across a space. The "X" here is just a shortcut to you selected options. In game, with the right powers, you can go from one part of the map to another, doing only a small part of a walk on the island! You can sell your items and turn the money into more money! Months ago, I thought that it'd be cool to create a game that's almost real-time and fully automated.I've always wanted to automate quests, and wanted to try it in a really simple way.So I did. Since then, the quests took a bit longer to write, so you'll be able to check out more features on the mainland in the coming months. There are no quests! All quests are done automatically! All the equipment in-game can be gained from monsters (including experience and loot).You can sell all your equipment, and it will be gained back into your character. No more gear locks!This is so you can

Vibrating screen Series SR-1000 Kromaticube Vibrating screen Series SR-1000 is a new generation of bench mounted vibrating screen designed for separating grains from small particles.The vibrating screen SR-1000 is built as an all new stiffened frame and a sturdy steel screen basket, combining the qualities of vibration frequency and screen area.High strength materials are used, the screen frame is an inverted profile for rigidity and stability and shock absorption at the corners are designed for high impact.The vibration area is very big and has a larger throughput than its competitors and it can be designed for different granulometry specifications with wide openings.The screening screen can work with a depth of 5000mm and has a solid frame for easier maintenance. . Applications for industries (or different types of industries), such as: Oil making Food making Chemical engineering Organic chemistry Pharmacy Healthcare Some of these uses are non-academic, while others are academic, for example, the Oil making industry, which is an industry with large requirements because of the use of moving parts and vibrations. Screenability analysis is done based on the quality of the screen's end product, so you will need to consider the quality of the oil and the chemistry of the oil. For a broad range of applications, the screen can be used without any problems, even for the harder and more viscous oil products. However, machine operators will need to be trained. Marketing Verification of the screening machine A HALT HALE when mixing the screen? The inlet and outlet screen holes in the screening machine have to be screened by the same measure, as well as the screen holes of the ceramic rings and the screen holes of the screen hopper. The screening cabinet has to be guarded to avoid accidental scratches and materials to fall into the screening cabinet, which is a common occurrence that affects the stability of the machine. The cabinet is designed to have a waterproof structure and a hot bending (denting) technique is used, which prevents the dented materials from falling into the machine. The screening machine can be introduced or moved along with the machine using the material detection control system to prevent any objections from the screen itself. The machine has a sharp hose nozzle, which, when in use, damages the screen. This is a common problem for industry because of the screens used. In the winter, when cleaning
