- Variety of Tools and Skills: That Have Never Been Seen Before in an Action RPG Elden Ring, a powerful game, was released in the 2D ARPG genre and possesses a variety of unique weapons and combat skills. A number of gameplay options have been added to the game including unique weapons such as rain blades, air blades, and dwarf throwing weapons that make the game more diverse and less repetitive. In addition, the variety of the tools available in the game is significantly expanded with Swords, Ram, Bows, Helmets, and Fire Arms. (among other items) Equip a variety of items that have never been seen in a 2D ARPG before to form an Elden Ring of your own. All combat skills are configured so that they can be used not only in battle but also in shops, buildings, dungeons, and the upper world. You can use any of the characters you have created during the free play period to fight your enemies with the weapons and skills of that character. You can even form a party in multiplayer to tackle your quests together. You can then trade, sell and train the items you collect in shops or buildings to raise your character's level.
- Surprise Attacks: Special Attack Beats Punching In the ARPG genre, fighting in the world is the most important action for the player but the battles are not always one-sided. In other games, when you fight your enemies directly, you do not receive any rewards other than 1 CP for defeating them. However, in Elden Ring, the battles are played not only through the attacks of the characters but also through a limited number of special attacks that can be executed when you press "square". These special attacks include but are not limited to: Rain Blades: Thrown Skill

Place an item in front of the enemy. The thrown item will then rebound from the enemy and attack it directly. Air Blades: Skill of the Air The enemy will be surrounded by a swirling orb. If the enemy is hit while within the orb, it will have its defense greatly reduced. Falling Blade: Skill of the Falling You choose a weapon that the enemy will be hit by. If the enemy is hit by this attack and you are unarmed, you will become that weapon. Dwarf Throwing Weapons: Skill of the Dwarf Destroy an enemy with a thrown weapon and a dwarf will be thrown to the enemy. If the enemy is hit by this
