## REPACK Elden Ring: Deluxe Edition Nulled SKiDROW CODEX [v 1.02 + DLC] [2022]

The Elden Ring Game is a fantasy action RPG made with Unreal Engine 4 where you take on the role of a Tarnished Lord to oppose the impending threat of the Evelyn Empire. With the help of your companions, you will take on the many enemies that stand in your way in an epic journey that will lead you to face the Fallen World. The theme, epic nature, and ambiance of Elden Ring make it an RPG that you have to play for yourself. WE WILL NOT BE UPLOADING TO XBOX ONE UNTIL WE HAVE SHIPPED THE GAME TO A JAPANESE CUSTOMER. Xbox is global and we haven't sold 1 million PS4 in Japan, so we will not be addressing this issue at this time. THANK YOU FOR YOUR UNDERSTANDING.

Side Note: In Japan its common practice for developers to create a game specific Japanese PSN account for a customer and they use that account to verify that the game is Japanese. We use the same policy as all Japan software and this is why we upload to PSN Japan. Hello there! We are a small indie team from Japan based in Toyko, and we just released our game on Steam. I would like to make a quick note about the game's translation. I'm not a native English speaker, and this is a bit embarrassing, but I always get my lines wrong. We shipped the game in March and we've finally realized that the English is not correct. We made a nice one-line translation that might look good, but it is completely wrong and makes no sense whatsoever. I would like to make clear that we chose a translator from a reputable service who worked with us before. Although we knew that it was not the perfect, we never imagined that it would be as bad as it is. Honestly, I don't know if you can fix it, but I think that the best solution would be to upload the game to Japan's PSN Store and then localize the game in Japan (we already have the resources and support to do this, but we need someone who speaks perfect English). If you decide to do this, please understand that it would be a tremendous help. If you don't, I will be happy to work on it. I'm very sorry for the inconvenience that you all are going through, and I truly hope that you can fix this issue. Please do consider supporting us so that we can

## **What's new in Elden Ring:**

**The Sword of the Gathering: Rise, Tarnished! Can you clear the challenge?** ■**Story** You awake as a slave under the name "Elden L. 2nd" in the famous city of Arcaneburg. Your earlier life was poisoned by a lie. You are about to be a precious commodity to Arcaneburg's evil businessman Haga Zircon. However, take a closer look at your surroundings. Are you not in a strange land filled with wonders? Arcaneburg, the city with a population of two million including the million plus noble citizens? This city of fantasy, standing on a floating island surrounded by the sea, is equipped with a divine shield that protects it! It seems that the people responsible for establishing this city were from a different world. Guided by the power of "the Sword of the Gathering", you leave a corrupt and false land in order to fight on the battlefield for your true homeland. Only you can decide the fate of the land and the people of the fantasy world.

■**Characters: Knight of the Shadows** You are a Tarnished Knight. Lost to the capital after the fatal incident, you decided to kill your own best friend. You have a thick scar on your right wrist, but you can't remember how you got it. It is implied that you are the kind who would plunge an arrow into his own heart, after killing his best friend. You couldn't think of your friend's name. Ticking off someone who killed your best friend and hearing they actually died, made you commit the crime of losing your feelings. If you cross the line with Haga, you will be a Tarnished Knight. If you can clear the mission assigned by Haga, you might be ready to face the serious world of Eden.

■**Weapons and Armor: Sword of the Gathering:** The sword of Eden. It has a large scope with good killing power. The blade is so sharp that it will penetrate the devil's body. **Blood Puddle** The blood of your life enemy's body will be left on the earth to fertilize the crops. One of the special skills you can use with this item. The more enemies you defeat, the more blood will be emitted, giving you more special effects. **Bear Claw Hand**
