Recent News Ladies and Gentlemen, we have almost completed our last 21-city summer tour in North America. We have been playing in some very enthusiastic audiences and have met people all along the route and had some great meetings and conversations. We are very excited to announce our return to the USA next fall and winter touring season! We are looking forward to get back to New York, San Francisco, Los Angeles, and Miami and do our thing with the American fans. The band has been on a three week break since our return from Finland and we are back to playing live, rehearsing new tunes, and getting ready for our tour with Revenge. The tour with Revenge will be happening in Central America and USA. The tour begins in the end of May in Costa Rica and then in the USA and Mexico. We are going to be doing three headlining shows, two in Mexico and one in the USA, plus one show in Canada. Further details about the shows will follow. After a long time being on the road, we have returned to the studio and are working on new songs and tunes for our next album. We have also been rehearsing new songs live, so we will also be playing a small number of these live when we play live in Finland. "Draw Me In" will be a European album release show on May 17th, 2019 in Helsinki, Finland. The album is released on the band's new record label Meinie Records. Our plans for "Draw Me In" are to play in the United Kingdom, in the United States and in Canada before the year is over. After the tour we will be working on the next album. The next album will be a European album release show, which will be on May 17th, 2019 in Helsinki, Finland. We will be releasing the album on Meinie Records. In the same week, we will also be playing a few live shows in Finland and Sweden, and touring through the rest of this year. We can't wait to celebrate the album release and we look forward to meeting our fans all over Europe, both old and new. Not this time, the RIAA sued hundreds of people for a \$150,000 wage. EFF intervened in a Minnesota case, representing hundreds of the defendants. Conveniently, the RIAA had waited for the Minnesota Supreme Court to hear the case, and it posted a notice

Q: Windows Store App, how to add a Notification? I have a windows store app written using Xamarin. I am not able to find the System.Notification namespace. Any help? A: Notification APIs are available only on the UWP Platform, therefore they are not supported in Xamarin. The Microsoft.UI.Notifications namespace is currently only supported on UWP Platforms. The documentation for the other platforms can be found here: .NET Platforms Xamarin.iOS Xamarin.Android Models and the evolution of language. Models are mental representations of ideas, such as of language, that may or may not be correlated with reality. If the models are correlated with reality, there is only one way in which they can 'evolve' (i.e. improve over time). If they are not correlated with reality, there are many evolutionary paths. In the latter case it is preferable to regard the models themselves as evolving; the models are themselves regarded as the units of evolution. The evolutionary paths are thus not paths of evolution in the usual sense (e.g. of Buss and nosil [1986] or Nosil [2005]). The models are emergent phenomena, not evolutionarily essential properties of the organisms that possess them. If this is your first visit, be sure to check out the FAQ by clicking the link above. I added the Darkling from Transylvania Hard to believe it, but it's been over 4 months since I last posted a journal update, so it's time to get back on that wagon! Also, I want to give a big shout out to my buddy CzPu for the awesome user name! My wife was going to buy a new hoodie for her birthday at the end of July, but I wanted to get the flying bug down. Was able to get that down as well as a new top Big thanks to The Barb who was kind enough to drop off the Kult Unlucky Hunt top I purchased from a few weeks ago. She told me she got a great deal on it on Amazon so it shipped to me for free! That was a huge help for getting the top to be in
