Plot The world is at war and all the oceans are used up. Now the tribes are fighting each other. Everyone knows this is not good so they start to look for another homeland. The shepherd as the leader of one of the tribes decided to give it a try. Thus he leads his tribe through the deserts towards the holy land. But there are many dangers along the way. Story The story is driven around the story of the Shepherd and his friends as they seek to find the Holy Land. Gameplay Players will interact with the creatures around them, weather conditions and the environment itself. Players can even get their hands dirty and help with the animals. Gameplay The Shepherd is based on an innovative turn based combat system. Players will travel across the screen facing different types of predators and defeating them. During the player's turn they will be able to attack, defend, revive and heal their sheep. Players will be able to breed different combinations of sheep. Depending on their looks and abilities players will be able to get some special varieties of sheep. Breed them to get further improvements. These improvements will give your shepherd additional abilities such as a higher attack, increased stamina, increased fertility, and increased flee speed. Each of these abilities will affect the stats of sheep. The Shepherd will feature a quest system that will add to the story of the game. The more quests that are done the more unlocked items will be added to the player's inventory. The time-based bar system will help the player win battles against stronger opponents. This will help players who don't have very high stats. The game will feature a lot of elements from the Middle Ages. The game will feature a dynamic turn based combat system with different types of enemies. Each enemy has their own special abilities and attacks. Players will also be able to hunt and feed their animals. Reception

Bloody Paws: Passion Unleashed

The planet Spectralis was once peaceful, a single continent of crystal perfection with a single people: the humans. Yet while those on the front lines of civilization fought the Spectralisian “enemy,” a far greater threat was lurking in the shadows. For years, a secret faction of human scientists have been planning an intervention, a plan to destroy the true nature of Spectralis, and claim the planet for the humans in the process. Now the time has come to carry out their plan. Without mercy or remorse, the humans have turned their greatest weapon – the human soul – against the species that created it. Spectralis is a bloody, addictive gameplay experience for Windows. Features: -1-4 single-player campaigns -Online multiplayer -Character leveling system -Craftable weapons -Team-based multiplayer -Open-ended skill tree for weapon crafting -A team-based battle system -Hundreds of weapons to collect -Attacking buildings and vehicles -Progress save system

Northerly River The Northerly River is a river of the south-western part of the Kimberley region of Western Australia. Course The river flows in the southern part of the Booljarra-Indermoulter landscape, beginning south of the Ned's Creek / Braitling Creek confluence, and northeast, thence due east until merging with the other tributaries to form the Wiluna River, near the mouth of the vast Lake Argyle. The combined river flows approximately west to commence the Wiluna River, which empties into the Indian Ocean via the Bird Ocean. The river was named by the explorer and surveyor, Charles Wilkins in 1827. See also List of rivers of Western Australia

What's new:

White Day: A Labyrinth Named School (, lit. White Day: The School on White) is a Japanese film which was written and directed by Mamoru Oshii. It is the tenth animated feature film of Japanese filmmaker Mamoru Oshii, the first installment of the Anime and Robot Wars film trilogy, and it is the first in the series' to be produced by Production I.G. The film is a prequel to the previous film of the trilogy, Ghost in the Shell: Stand Alone Complex, and it follows the time-span of 17-20 years before the events of Stand Alone Complex, focusing on an elementary school student named Kaname Chihiro. The story of the anime series adaptation follows, but has little relation to the original manga. In the film, Chihiro and

his classmates are enlisted by a government agency, called "Humanity, Inc.", to test their potential to become cyborgs. To this end, the school is renovated to encourage students to volunteer for the experiment. The project, known as "Humanity Project", is controlled by multiple figures including Nariko Tsutsui who designs cybernetic brains for the Human Jackers. In addition, Humanity Inc. is part of a greater organization, known as Root, which attempts to terraform Mars. The story follows the trail of Chihiro as he learns how a real cyborg develops. Through the journey, Nariko leads the group through powerful schools in the city. As they learn, the students take their own decisions with consequences. Eventually, the Human Jackers capture Chihiro, leaving the group split on what to do to save him and themselves. A battle between the Interpol Agent Fuchikura and the school security guards ensues. In the end, the battle is stopped but Fuchikura himself is killed. They later rescue Chihiro who tries to finish his preparations and begins to live with the Helsing Organization. Plot In April 1997, a small toy company called Playroom is mysteriously destroyed. Six-year-old Chihiro finds his beloved toy, a robot named Solid, in the accident. Chihiro is haunted by the robot, believing his death to be his fault. Soon afterwards, Chihiro begins attending the fictional Ushinomiya Primary School, the "White Day" of the title, based on his experience of being haunted by Solid. While attending school, Chihiro meets the other school children,

Troy is on a mission to save his friends from a mysterious virus. Can he do what no one has ever done before and access a host of new powers to get there? In a world full of chaos, only one man can save it. You must be 18 years old to play this game. You are currently playing the first chapter of the game. Troy`s multi-faceted story continues from here! What's New in This Version:

Approach Mode: This is a new turn based tactical combat system where you take turns with your team. Troops are placed to defend the area and attack enemies. You can use wall strategies, passives or even use Troops to break the walls. This mode provides you more options to engage in combat. Go head to head in this mode against both the CPU and your friends. (More info coming soon)

Hover Counters and Timed Activities: You now have the option to place an activity on your troops. These can be used to activate a timed activity. These activities include but are not limited to hover counters, electronic explosions, time freeze, death to all, and other surprises. This new mechanic allows for some really unique tactics to be played. Whether it is a poke in the eye attack against your enemy or making them stumble into another trap, these new mechanics can be used in some really cool ways. This is just a taste of what you will get when you play Troy.

New Areas: There are now more new areas to explore. Not only are there more places to go but the map of the area is bigger. You can now explore more areas in the first chapter of the game.

Available Operations: There are more available Operations for you to use. You can now select from

options such as a push, pass, smash or an ultimate attack. **Upgrades:** This is all about you. You can now give your units more power, damage or even resurrect them. **Armory System:** The Armory System is back with more options. You can now customize your Troops with an item set. You can use your items for strength, endurance, attack, defense or health. **Castle:** Now your enemy also has a castle. The castle is where they will deploy their Troops. You now have 2 objectives to capture as well. **Battle Thread:** You can now join in game battle threads for both the
