Add to desired location. highly compressed.rar. highly compressed game.rar.The present invention relates to the field of database querying and, more particularly, to the field of implementing the VisualWorks query language. A database is a computerized collection of information that is organized in a manner that makes it useful. When a user submits a query, it is sent to the database and the results returned to the user in a form that makes them more useful. The user may use the results for many purposes, including information retrieval, data mining, data entry, decision support, decision control, workflow control, and change control. Databases are widely used in a number of settings, including business, scientific, technical, and public administration. Examples include retail stores, banking, medical, insurance, military, law enforcement, government, aerospace, and general interest topics. Users of such databases include individuals and organizations. Examples of users include organizations, businesses, governments, and individuals. The Microsoft VisualWorks product e79caf774b
