Share your experience, or leave a bad review.Q: Select first element in list Let's say that I have this list: var list = new List() { "a", "b", "c", "d", "e", "f", "g" }; How can I get the first element of the list without using linq? A: First, I'll point out that there is no such thing as a "first element of a list." That being said, you can get the first element of an IEnumerable simply be calling the Enumerator's Current method: IEnumerator enumerator = list.GetEnumerator(); string firstElement = enumerator.Current; (Note that you can also get the first element of a List using the SingleOrDefault extension method, but I'll leave that as an exercise for the reader;-) A: There are multiple ways to get 6d1f23a050
