Alternate Website. Epub format PC games free download darkstalkers collection Darkstalkers is a fighting game that was released by Capcom in 1995. It is the sequel to the 1994 video game, Darkstalkers 2: The Night Land. The game is rated Teen by the ESRB, and was developed for the Super Nintendo Entertainment System, the Sega Saturn, the PlayStation, Windows, and Macintosh PCs. It is one of the most acclaimed fighting games in the history of video gaming. Capcom intended it to be the beginning of a series of games that could take advantage of modern technology. A great strength of the game was its fast and highly energetic action, and the game has been referred to as a "Marvel Universe in a Double Dragon Universe". It remains the most successful fighting game released for the Super Nintendo Entertainment System. The Game Boy Advance, PlayStation 2, GameCube, Dreamcast, PlayStation Portable, and Nintendo GameCube versions were all officially confirmed for release in North America and Europe, though only the Game Boy Advance version was released. The PSP version was developed by Namco in Japan, and in North America and Europe by Vic Tokai, which led to the inclusion of several technical bugs and glitches, as well as copious amounts of censorship. The port was highly criticized by video game reviewers and game critics, and its poor sales and low ratings were primarily c6a93da74d
