The php script is a file that is included on the web page. When I run the php script and select the contacts, they all appear in the list in the same order they appear in the table. The script includes a php file that displays the dateAdded field. Why do the dates appear in the same order they appear in the table? I need them to appear in order they were selected in the table. P.S: I do not have control over the file that creates the table. Thanks for the help.
