Reason 10 is a huge upgrade. Filled with tons of exciting new sounds and instruments, Reason 10 brings your music to life with two epic new synths, the Europa. This vintage organ-inspired instrument is the primary sound source you'll hear on all synths, including the new guitar synths and drums. The Europa can also be used as an analog keyboard, so you can play it like a simple organ. With this keyboard, you get many other tools at your disposal, such as Vocodex, Fretboard and various additional effects.
