
Left 4 Dead 2 Gameinfotxt PATCHED

I miss this file, but I need it. Is there a place where I could get it? I can't launch the game because it keeps telling me that I don't have it. I checked and it turns out I didn't download anything because everything I had on my computer was on a CD that I couldn't burn anything to. I have the game disc but I can't connect to the internet. You wouldn't want me to say that I have this file called "Paper.Boy.Bundle.X-Files" because I don't know what it looks like. You said that I would shop by phone and I can do it right now. So I know where to find this file.
