3 months of XBL, a \$5 Microsoft giftcard, and Max: The Curse of Brotherhood for XB1 and Xbox360. All that for \$25, which is how much a 3 month card costs anyway.. got to this too late, I'll be downloading and playing this adventurous arcade game after I get off of work tonight. The game was originally going to be released for the PlayStation 4, but this release was canceled due to the console's failure and was then made available for Xbox One as Max: The Curse of Brotherhood. Unlike the PS4 version, Max: The Curse of Brotherhood does not feature any PlayStation Network functions, such as save sharing, and is intended as a standalone version of the game. Max: The Curse of Brotherhood was the first game developed by Swedish studio The Chinese Room, which was acquired by Warner Bros. in March 2015. The game was released as a free download for Xbox One owners during Xbox Live's Games with Gold program. Max: The Curse of Brotherhood was released on Xbox One and Windows 10 on June 7, 2016, followed by a release on PlayStation 4 on June 12, 2016. Contents Plot Max is the main character of the game. He lives in an open, red and black world with large skies and a lot of mist. Max is on a journey to find out the truth behind his powers. He must gather the four Elements that are needed to heal his dying mother and stop the evil Nothic Queen. Max starts his journey by crafting the Magic Marker. It's his only tool and weapon in his journey to save his mother. His journey will lead him to the four Elements. Gameplay The gameplay of Max: The Curse of Brotherhood is similar to the games LittleBigPlanet, Braid, and Journey. The game is presented in a 3.5D isometric view, which is a mix of top-down and side-scrolling gameplay. The player is able to manipulate the game world by drawing on the floor. The bottom screen displays the currently active area on the floor and the player's current location. The top screen displays the camera view and the player's actions. All objects are seen from a 3.5D perspective, and any object that is drawn on the floor can be picked up. There are six main actions the player can perform. They are walk, run, jump, run jump, fire a bow, and use a shield. While on the run, the player can pick up
