Auto Shutdown Timer, also known as Power Timer, Automatically Shut Down Computer When Expiration Time is Over, is a free, simple, reliable, very useful utility that will run on Windows 2000, XP, Vista, and 7. It also works on Mac OS. It is the best way to shutdown your computer without mouse or keyboard. Once a specified period of time has passed, the shutdown will be initiated. Auto Shutdown Timer is based on the default shutdown policy of Windows which is defined in Power Options. You have the option to enable this shutdown policy by adding the application to your startup programs or by adding the application to the startup folder. Features: Easy to use
