## **Prusa Slicer Crack [March-2022]**

PrusaSlicer is an application designed to help you build and modify 3D objects. It provides basic CAD tools for creating 3D models and printing them using 3D printers. PrusaSlicer is compatible with all major brands of 3D printers that print using FFF technology. PrusaSlicer Features: - Ability to create 3D models for printing - Ability to modify pre-made models - Print preview - Ability to export to.STL,.OBJ,.OBB,.PLY,.CAD and.PLY - Ability to export to.STL,.OBJ,.OBB,.PLY,.CAD and.PLY - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.STL,.OBJ,.OBB,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to.OBJ,.PLY,.PLYcad,.CAD,.STL,.OBJ,.OBB - Ability to export to

## What's New in the?

PrusaSlicer is a free and easy-to-use software for printing and viewing STL files. No subscription required. PrusaSlicer supports:- Retopo (non-standard) - Retopo (standard) - Retopo+Tiny (non-standard) - Retopo+Tiny (standard) - Basic FDM - Advanced FDM - Build plate format (i.e. standard, half, quarter,...) - Free floating - Build plate format, advanced, with support for polygonal curve segments - Build plate format, advanced, with support for cuboids - SLA format - SLA export - SLA import - Advanced support for dual extruder, including temperature control, bed leveling, rotation - Filament data (optional) - Basic support for bed leveling - Basic support for print / pause / resume - Support for print on custom platform - Support for print on auto bed leveling - Support for print on rollers - Support for custom filament list - Support for manual filament load - Support for stepper - Support for extruder temperature - Support for extruder stepper position - Support for nozzle temperature - Support for heatbed temperature - Support for printing speed - Support for retraction - Support for retraction speed - Support for manual bed leveling - Support for automatic bed leveling - Support for z-offset - Support for X axis speed - Support for Y axis speed - Support for Z axis speed - Support for extruder speed - Support for print resolution - Support for extruder rotation - Support for extruder torque - Support for extruder linear speed - Support for extruder rotational speed - Support for infill - Support for support material (e.g. wood) - Support for support material type (e.g. wooden, balsa, plywood) - Support for support material density - Support for support material hardness (e.g. medium, medium-hard, hard) - Support for support material color - Support for support material infill density - Support for support material diameter - Support for support material

height - Support for support material pattern - Support for support material type (e.g. wood, bamboo) - Support for support material infill pattern - Support for support material infill density - Support for support material infill holes - Support for support material infill holes diameter - Support for support material infill holes count - Support for support material infill holes position - Support for support material infill holes density - Support for support material infill holes pattern - Support for support material bottom - Support

## **System Requirements For Prusa Slicer:**

CPU: Intel Core i5 or better, or AMD equivalent Memory: 4 GB Graphics: NVIDIA GeForce GTX 560/AMD Radeon HD 7870 equivalent or better, or Intel HD 4000 equivalent DirectX: Version 11 Storage: 45 GB available space Additional Notes: Minimum system requirements are subject to change. Please check the store listing for your specific system requirements. Please check the store listing for your specific system requirements. Modern Warfare 2 may not be supported on older Mac systems, please ensure you meet the minimum
